

CASE STUDY

WAIKATO REGIONAL COUNCIL

A Solid Upgrade: DN1800 SN8 Pipes Built to Last

OVERVIEW

We recently supported [Waikato Regional Council](#) in replacing and extending a corroded steel culvert with custom-made **DN1800 SN8 pipe sections, each 3.5m long**, manufactured by Infrapipe.

The installation went smoothly, and the team expressed strong satisfaction with the quick turnaround and service provided. We're proud to contribute to durable, future-ready infrastructure solutions.

KEY FACTS

- ✔ **Location:** Waikato, New Zealand
- ✔ **Scope:** DN1800 SN8 Pipe Sections, each 3.5m long

At Infrapipe, we deliver stronger, smarter infrastructure solutions that are rust-free, long-lasting, and built to perform for decades to come. We are committed to shaping the future with reliable systems for essential projects.
