

DATA SHEET FOR USING INFRAPIPE FOR STREAM DIVERSION

BENEFITS

INFRAPIPE is the best solution for lightweight, fully certified stream diversion pipes because it is the only option that:

- ✓ Is made as light or as strong as required and
- ✓ Is fully ISO certified to AS/NZS5065:2005 and
- ✓ Is available with or without a smooth exterior and
- ✓ Is manufactured in the North Island and
- ✓ Is fully recyclable and
- ✓ Is manufactured to the length required and
- ✓ Is certified to be bolted/pinned to ease installation and
- ✓ Can be factory fitted with fish baffles and
- ✓ Can be factory welded to 11.8m or 15m lengths for fast installation

PRODUCT DETAILS

Pipe is manufactured to order with the required strength rating (INFRAPIPE can advise), exterior profile and length.
