

# LARGE SOLID WALL PIPE

WHEN YOU WANT IT, HOW YOU WANT IT!

Our **HDPE spiral** winding machine in East Tamaki—which can make pipes up to 3200mm in diameter—can also make **solid wall pipe** just like the existing players in the market, but this machine is a lot more **flexible!**

**NO Setup fee** to break the bank

**NO Minimum Quantity** – one length is enough

**NO Long lead time**, typically 1-2 weeks

**NO Over-paying**; we can make the exact length you need

If you want <b>SDR 17</b>		Then try INFRAPIPE			Or choose next size	If you want <b>SDR 13.6</b>		Then try INFRAPIPE			Or choose next size	If you want <b>SDR 11</b>		Then try INFRAPIPE			Or choose next size
DN	ID	ID	OD	ID	DN	ID	ID	OD	ID	DN	ID	ID	OD	ID			
560	494	525	595		560	478	525	613		560	458	450	550	525			
630	556	525	595	600	630	537	525	613	600	630	515	525	641				
710	626	600	680	700	710	606	600	702		710	581	600	732				
800	706	700	806	800	800	682	700	820		800	655	700	854				

The above are the common examples; not only can we go either side of this range to **SDR9, 21** or beyond, but with this machine we can make any **SN/SDR/PN** you require from the following IDs:

**375,450,525,600,700,800,900,1000,1100,1200,1350,1500,1600,1800,2000,2300,2500,3200.**

**Fittings** are available if required such as **reducers/couplers** and **pipe** can be factory welded up to **18m**.

**Solid-wall pipes** are only part of what we make, we do **culverts** from 100-3200 and tanks from 8m<sup>3</sup> to 500m<sup>3</sup>+
